Director, Legislative Affairs
Federal Communications Commission
Room 808
1919 M Street, NW
Washington, D.C. 20554

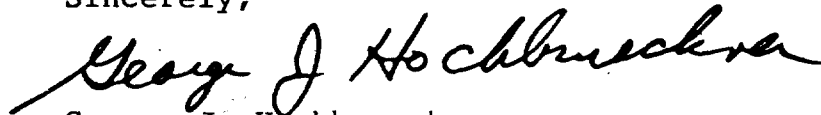

Dear Ms. Solheim:

I am enclosing a copy of a letter I received from one of my constituents, Mr. Alexander Sabosto, concerning a proposal to change private land mobile radio services operating between the 150-512 MHz band.

Since this matter deals with the rulemaking proposals being considered by the FCC, I am referring this letter to you for a response.

Thank you for your time and attention to this matter. I look forward to hearing from you soon.

Sincerely,

George J. Hochbrueckner
Member of Congress

PR Docket No. 92-234

In the Matter of:
Replacement of Part 90 by Part 88 to
Revise the Private Land Mobile Radio
Services and Modify the Policies
Governing them.

Comments of: A & M ELECTRONICS

Dear Representative Hockbrueckner:

I am writing to you in reference to the proposed "refarming" of the frequency spectrum from 150 to 512 MHz, better known as Part 88. It is destined to destroy my business.

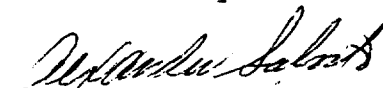

FCC Part 88 attempts to promote spectrum efficiency and technology development, but its outcome will be a monopolistic power grab of unprecedented proportions.

Part 88 (proposed to replace Part 90) will force the replacement of billions of dollars of perfectly good radio equipment currently used by cities, counties, states, business and industry.

Unfortunately, new equipment supply falls into the hands of a few large corporations positioned to monopolize the Land Mobile Industry.

Thanking you in advance.

Yours truly,

Alexander Sabosto
